

Radiation Safety

Provider: Alaska Technical

Length: 40 Hours

Cost: \$1,000

Cost Unit: Cost of the entire program

Website

http://www.alaskatechonline.com/course_descriptions.html

The course is intended to provide the participant with an understanding of basic radiation theory, health and safety protection problems associated with radiation exposure, the applicable provisions of Federal and State regulations, as well as the safe and correct use of industrial radiographic exposure devices (X and gamma). This radiation safety and protection program is ideal preparation for all radiography trainees, assistants, health and safety personnel, quality control inspectors, or any personnel involved in projects where radiographic inspection is being conducted.
